- 69 137. The microbubble preparation of claim 137 wherein said modifier gas comprises air.
- 70 141. The microbubble preparation of claim 137 wherein said modifier gas comprises carbon dioxide.
- 71 142. The microbubble preparation of claim 138 wherein said gas osmotic agent comprises perfluoropropane and said modifier gas comprises nitrogen.
- 72 143. The microbubble preparation of claim 138 wherein said gas osmotic agent comprises perfluoropropane and said modifier gas comprises oxygen.
- 73 144. The microbubble preparation of claim 138 wherein said gas osmotic agent comprises perfluoropropane and said modifier gas comprises a mixture of oxygen and nitrogen.
- 74 145. The microbubble preparation of claim 138 wherein said gas osmotic agent comprises perfluoropropane and said modifier gas comprises air.
- 75 146. The microbubble preparation of claim 138 wherein said gas osmotic agent comprises perfluorohexane.
- 76 147. The microbubble preparation of claim 138 wherein said modifier gas comprises nitrogen.
- 77 148. The microbubble preparation of claim 146 wherein said modifier gas comprises oxygen.
- 78 149. The microbubble preparation of claim 146 wherein said modifier gas comprises air.
- 79 150. The microbubble preparation of claim 146 wherein said modifier gas comprises carbon dioxide.
- 80 151. The microbubble preparation of claim 138 wherein said gas osmotic agent comprises perfluorohexane and said modifier gas comprises nitrogen.
- 81 152. The microbubble preparation of claim 138 wherein said gas osmotic agent comprises perfluorohexane and said modifier gas comprises oxygen.
- 82 153. The microbubble preparation of claim 138 wherein said gas osmotic agent comprises perfluorohexane and said modifier gas comprises a mixture of oxygen and nitrogen.
